The Blast Furnace and Steel Plant

YEARLY INDEX

January to December 1917

The following is an index of feature articles appearing in THE BLAST FURNACE AND STEEL PLANT from January through December, 1917. In addition to the articles included in this index the following departments appear regularly each month: Production Topics, News of the Plants, Industrial Safety, Open Hearth, Some Pointers on By-Product Coke Oven Operations, With the Equipment Manufacturers, Recent Patents, Trade Notes, Trade Publications and Society Meetings.

	Mo.	Pp.
Acceleration, Torque and Work of	Aug.	372
Acid Open Hearth Process, The, by F. Rogers	Dec.	545
Air Drying Methods for Blast Furnaces, by Leon Cammen	May	216
Alumina as a Component of Blast Furnace Slag, by Wallace G. Imhoff	June	261
Alumina Inclusions in Steel	Jan.	36
Aluminum, Coating Iron with	June	36
Aluminum Cables, Steel Reinforced	Feb.	74
American Iron and Steel Institute Meeting	Nov.	491
A Reply to Mr. Geissinger's Discussion	Apr.	146
Armament Making, Tire Mill in	July	329
Annealing Rolls Feighing Four and Five Tons	Sept.	414
Australia, The Iron and Steel Industry of, by R. A. Field	July	299
Automatic Handling, Skip Hoists for, by H. V. Schiefer	Sept.	402
A. I. S. E. E. Conventions	Oct.	438
Bell Hoists, Electric Motor Drive for	Feb.	74
Belt Conveyors	Apr.	174
Bessemer and Open Hearth Temperatures Gaging, by George K. Burgess	Mar.	117
Bessemer and Open Hearth Practice, Temperature Measurements in	May	225
Bessemerizing, Roll Scale as a Factor in, by A. Patton and F. N. Speller	Apr.	161
Blast Furnace, Moving a	Sept.	414
Blast Furnace, Carbon Monoxide in	July	329
Blast Furnace and Steel Mill Power Plants	June	285
Blast Furnace Slag, Alumina as a Component of, by Wallace G. Imhoff	June	261
Blast Furnace Slags, Types of Different, by Wallace G. Imhoff	Mar.	113
Blast Furnaces, Air Drying Methods for, by Leon Cammen	May	216
Blast Furnace By-Product, Potash as One, by R. J. Wysor	Apr.	167
Blast Furnace and Coke Oven Gas, Mixing of	Feb.	74
Blast Furnace Use, Electric Skip Hoists for, by H. D. James	Feb.	71
Blast Furnace Slag Cements	Jan.	36
Blast Furnace Gas, Enriching, by Dr. W. Zimmerman	Jan.	34
Blooming Mills, Gaging Capacities of, by W. Trinks	May	195
Bloom Shears, Electrical Operation of, by G. E. Stoltz	Sept.	408
Blowing Engines, Improving Blast Furnace	Oct.	456
Blooming Mills, Electrical Reversing, by Ralph D. Nye	Dec.	566
British Iron and Steel Institute Meeting	Oct.	469
Brittleness in Steel Through Electroplating	Feb.	74
Brittleness in Iron Through Sodium Hydroxide	Jan.	34
By-Product Coke Oven Pressure Regulation, by W. Trinks	Oct.	461
By-Product Plant at Shear and Tool Works, by Charles C. Lynde	Jan.	1
Calculations Covering Carbon in Furnaces, by J. W. Richards	Feb.	67
Carbon Monoxide, Test for	Sept.	414
Carbon in Furnaces, Calculating Covering, by J. W. Richards	Feb.	67
Carbon Monoxide in the Blast Furnace	July	329
Causes of Colors in Furnace Slags, Some, by Wallace G. Imhoff	Feb.	58
Causes for High Electrode Consumption in Electric Furnace Practice	July	329
Causes of Steel Ingot Defects, by J. N. Kilby	July	301
Cementation of Iron by Solid Carbon	Apr.	166
Central Station Power for Steel Mills, by J. McKinley and Ray Baker	Oct.	441
Chain Drives for Steel Mills, Silent	Jan.	48
Characteristics of Electric Furnace Slags, by Wallace G. Imhoff	May	204
Characteristics of Roller Bearings, by P. B. Liebermann	Oct.	451
Characteristic Edges of Pig Iron Samples, by W. G. Imhoff	Jan.	9
Chemical Reactions of Iron Smelting, by Henry P. Howland	July	325
Chemical Reactions of Iron Smelting, by Walter Mathesius	June	258
Chile, Ore Transportation in	Feb.	74
Chromium Magnetic Steel	Sept.	414
Cinder Notch Stopper	Sept.	414
Coal and Ash Transportation at Producers, by H. V. Schiefer	May	199
Coating Iron with Aluminum	Jan.	36
Coefficient Curves for Stack and Oven Gas, by Thomas G. Estep, Jr.	Apr.	147
Coke Oven Accidents in 1916, Report of	Nov.	523
Commutator Trouble, Frame Vibration Responsible for	May	225
Concrete Foundation, Destruction of	Apr.	174
Conveyors, Belt	Apr.	174
Co-operation and the Mobilization of Public Sentiment, by John A. Topping	June	273
Copper, Iron and Steel, Micrographic Studies on	Feb.	74
Cotton Rope for Power Transmission, by J. Melville Alison	Aug.	354
Critical Points of Iron, Thermo-Electric Determination of the	Jan.	34
Crude Oil, A New Method of Burning, by W. K. Janessen	Dec.	569
Crystallization of Steel Ingots, by J. F. Keller	Oct.	455
Data for Shearing Steel and Other Metals, by W. Trinks	Mar.	95
Design of Mill Rolling Flat Flanged Beams, by F. Denk	Jan.	7
Destruction of Concrete Foundation	Apr.	174
Devices for Detecting Gas	May	225
Disposal of Waste Metals	Jan.	38
Determination of Hardness, by A. E. Tutton	Feb.	70
Dry-Hot vs. Cold-Wet Furnace Gas Cleaning, by Linn Bradley, H. D. Egbert and W. W. Strong	Mar.	104
Detecting Gas, Devices for	May	225
Discussion: by S. P. Bush and R. P. Flinterman	June	251
Dust Explosions	June	285
Data on Rope Drive for Rolling Mills	Aug.	372
Duplex Process, Steel Production by the, by J. K. Furst	Sept.	392
Duplex Process, Steel Production by the, by J. K. Furst	Oct.	458
Early Iron Makers	Apr.	158
Earth Pressure, Experiments on, by P. M. Crosthwaite	Apr.	165
Economy Factors, Electric Power, by Brent Wiley	Nov.	514
Efficiency of Illuminants	Jan.	36
Electroplating, Brittleness in Steel Through	Feb.	74
Electric Furnace Skip Hoists	Apr.	174
Electric Motor Drive for Bell Hoists	Feb.	74
Electric Skip Hoists for Blast Furnace Use, by H. D. James	Feb.	71
Electric Furnace Central Station Supply, by Edwin L. Crosbey	Nov.	521
Electric Furnace Economy Factors, by Brent Wiley	Nov.	514
Electric Furnace, Smelting Pig Iron in, by Robert Turnbull	Nov.	502
Electric Furnace, Operation of Heroult, by W. C. Kennedy	Oct.	467
Electric Drives for Reversing Mills, by D. M. Petty	Oct.	464
Electric Furnace, Greaves-Etchells, by A. M. Staehle	Oct.	454
Electric Furnace Practice, Causes of High Electrode Consumption	July	329
Electric Furnace Slags, Characteristics of, by W. G. Imhoff	May	204
Electric Smelting in New Zealand	Apr.	174
Electric Furnace Operation	Apr.	174
Electrical Reversing Blooming Mills, by Ralph D. Nye	Dec.	566
Electrical Operation of Bloom Shears, by G. E. Stoltz	Sept.	408
Electrical Development in the Steel Industry, by C. G. Ahrens	Oct.	437
Elements of Roll Pass Design, The, by W. Trinks	June	269
Elements of Roll Pass Design, The, by W. Trinks	July	329
Elements of Roll Pass Design, The, by W. Trinks	Sept.	400
Elements of Roll Pass Design, The, by W. Trinks	Nov.	518
Elements of Roll Pass Design, The, by W. Trinks	Dec.	555
Engine Bases, Removing Old	Feb.	74
Enriching Blast Furnace Gas, by Dr. W. Zimmerman	Jan.	34
Equipping Plant for Heavy Steel Work, by Charles C. Lynde	Feb.	64
Etching Mild Steel, Re-agents for	Apr.	166
Experiments on Earth Pressure, by P. M. Crosthwaite	Apr.	165
Experimental Tests on Silica Bricks, by C. E. Nesbitt and M. L. Bell	Sept.	409
Ferromanganese, Problems in Liquid Use of	July	329
Firebrick, Texture of	Jan.	38
Firebricks and Clays, Melting Points of	Jan.	36
Flat Flanged Beams, Mill Design for Rolling, by F. Denk	Feb.	61
Flat Flanged Beams, Mill Design for Rolling, by F. Denk	Mar.	101
Flat Flanged Beams, Mil Design for Rolling, by F. Denk	Apr.	149
Flat Flanged Beams, Mill Design for Rolling, by F. Denk	May	202
Flat Bar Iron or Steel, Rolls for, by W. S. Standiford	Sept.	397
Formulae for Finding Large Gas Volumes, by H. G. Geissinger	Feb.	55

Original from UNIVERSITY OF IOWA

	Mo.	Pp.
Frame Vibration Responsible for Commutator Trouble	May	225
Frozen Ore and Coal Cars, Unloader	Feb.	69
Furnace By-Product, Potash as a, by R. J. Wysor	Feb.	72
Furnace Slags, Some Causes of Colors in, by W. G. Imhoff	Feb.	58
Furnace Slag, Sulphur as a Component of, by W. G. Imhoff	July	308
Furnace Slag, Sulphur as a Component of (2), by W. G. Imhoff	Aug.	358
Furnace Slag, Lime as a Component of, by W. G. Imhoff	Sept.	411
Furnace By-Product, Potash as One, by R. J. Wysor	Mar.	110
Furnace Gas Cleaning, Dry-Hot vs. Cold-Wet, by Linn Bradley, H. D. Egbert and W. W. Strong	Mar.	104
Furnace Flux, Increase in Production of	Sept.	414
Fuels Available for Metallurgical Furnaces	Jan.	26
Fuel, Pulverized Coal as	Mar.	126
Gas Volumes, Formulae for Finding Large, by H. G. Geissinger	Feb.	55
Gaging the Capacities of Blooming Mills, by W. Trinks	May	195
Gearing, Improving Noisy	Jan.	38
Gearing Development Through Treatment, by W. H. Phillips	Apr.	152
Gears and Pinions for Steel Mill Service, by E. S. Sawtelle	Nov.	497
German Activities in the Iron and Steel Industry	Sept.	414
Government Research on Uranium Steel	June	276
Grab Bucket Coal Hoists, Operation of, by James Farrington and R. H. McClain	Nov.	507
Greaves-Etchelle Electric Furnace, by Alfred M. Staehle	Oct.	454
Growth of Electric Drive for Reversing Mills	Sept.	414
Guns for Digging Slag from Open Hearth	Nov.	523
Hammering, Turning Stock During	Feb.	74
Hardness, Determination of, by A. E. Tutton	Deb.	70
Heat Measuring Limits	Apr.	174
Heating Furnaces, Smokeless Operation of	Mar.	126
Heavy Steel Work, Equipping Plant for, by Charles C. Lynde	Feb.	64
Heroult Electric Furnace, Operation of, by W. C. Kennedy	Oct.	467
High Temperatures, Obtaining Extra	Jan.	38
Hot Blast Stove Design, Late Progress in, by A. J. Boynton	Jan.	19
Hot Blast Stoves, Suggestions Regarding Construction	Mar.	126
Illuminants, Efficiency of	Jan.	36
Impact Tests and Their Relation to Others, by H. J. Stagg, Jr.	May	209
Improving Blast Furnace Blowing Engines	Oct.	456
Improving Noisy Gearing	Jan.	38
Increase in Production of Furnace Flux	Sept.	414
Influence of Cooling on Service of Rails, by Dr. P. H. Dudley	Jan.	28
Ingot Pouring Device Reduces Piping, by Alfred M. Staehle	Sept.	399
Installation of Large Turbo Generator, by Richard H. Rice	July	315
Insulating Oils and Dusts	Apr.	174
Investigation of Stresses in Mill Housings, by J. D. Keller	Aug.	347
Iron Coke	Jan.	34
Iron in Water, Rusting of	Jan.	38
Iron Smelting, Chemical Reactions of, by Walter Mathesius	June	258
Iron and Steel Industry of Australia, The, by R. A. Field	July	299
Iron Smelting, Chemical Reactions of, by Henry P. Howland	July	325
Iron Ore Mined in 1916	Sept.	414
Iron and Steel in the United Kingdom	Dec.	573
Late Progress in Hot Blast Stove Design, by A. J. Boynton	Jan.	19
Lava Crucible Stands 70 Heats, New	Aug.	372
Lime as a Component of Furnace Slag, by W. G. Imhoff	Sept.	411
Linings and Materials, Refractory (1), by J. W. Haulman	Apr.	159
Linings and Materials, Refractory (2), by J. W. Haulman	May	197
Low Carbon Steel, Discussing Sulphur in	May	221
Low Carbon Electric Steel, Production of, by A. S. Hellstrom	Aug.	371
Lubrication, Need of Wire Rope	May	225
Making and Buying Sheet and Strip Stock, by F. W. Guibert	May	218
Manganese Significance in Steel Metallurgy, by F. H. Willcox	Mar.	97
Manganese Investigations	Dec.	573
Manufacture of Steel Castings, The, by R. P. Lamont	June	247
Measuring Air Delivered by a Turbo Blower, by T. G. Estep, Jr.	Dec.	558
Measuring Gas by a Standard Orifice, by T. G. Estep, Jr.	Jan.	16
Melting Points of Firebricks and Clays	Jan.	36
Metal Washing, Metalloid Removal from, by E. L. Ford	Feb.	56
Metalloid Removal from Metal Washings, by E. L. Ford	Feb.	56
Metallurgical Furnaces, Fuels Available for	Jan.	26
Micrographic Studies on Copper, Iron and Steel	Feb.	74
Mild Steel, Strength and Inner Structure of, by Prof. W. D. Dalby	June	277
Mill Design for Rolling Flat Beams, by F. Denk	Feb.	61
Mill Design for Rolling Flat Beams, by F. Denk	Mar.	101
Mill Design for Rolling Flat Beams, by F. Denk	Apr.	149
Mill Design for Rolling Flat-Flanged Beams, by F. Denk	May	202
Mill Rolling Flat-Flanged Beams, Design of, by F. Denk	Jan.	7
Mill Housing, Investigation of Stresses in, by J. D. Keller	Aug.	347
Mixing Blast Furnace and Coke-Oven Gas	Feb.	74
Moving a Blast Furnace	Sept.	414
Need for High Air Pressures in Tuyeres, by W. Trinks	Feb.	53
New Lava Crucible Stands 70 Heats	Aug.	372
New Method of Burning Crude Oil, A, by W. K. Janssen	Dec.	569
New Zealand, Electric Smelting in	Apr.	174
Noisy Gearing, Improving	Jan.	38
Obtaining Extra High Temperatures	Jan.	38
Old Rails, Reinforcing Bars Rolled from, by W. S. Standiford	Dec.	560
Old Locomotive Tires, Shovel Plates from, by W. S. Standiford	June	274
Oils and Dusts, Insulating	Apr.	174
Open Hearth Shield	Nov.	523
Open Hearth Furnace of Large Capacity, by R. H. Irons	Sept.	406
Operation, Electric Furnace	Apr.	174
Operation of Heroult Electric Furnace, by W. C. Kennedy	Oct.	467
Operation of Grab Bucket Coal Hoists, by James Farrington and R. H. McClain	Nov.	507
Ore Transportation in Chile	Feb.	74
Patents, Copyrights, Etc., Discussion	Apr.	160
Performance of Uniflow Engine in Steel Mill	Oct.	473
Physical Analysis of Refractory Material, by Cosmos Johns	Dec.	563
Pig Iron Samples, Characteristic Edges of, by W. G. Imhoff	Jan.	9
Pig Iron in the United States in the First Half of 1917, Production of	Sept.	431
Piping, Ingot-Pouring Devices Reduces, by Alfred M. Staehle	Sept.	399
"Piping Hot"	Apr.	154
Plate Mills for Rolling Sheared Plates, by F. C. Biggert, Jr.	Oct.	443
Pneumatic Conveyor for Slack	Apr.	174
Potash as a Furnace By-Product, by R. J. Wysor	Feb.	72
Potash as One Blast Furnace By-Product, by R. J. Wysor	Mar.	110
Potash as One Blast Furnace By-Product, by R. J. Wysor	Apr.	167
Power for Steel Mills, Central Station, by J. McKinley and Roy Baker	Oct.	441
Power Plants, Blast Furnace and Steel Mill	June	285
Power House Design for Economy, by Alexander Dow	July	323
Power Requirements, Rolling Mill, by F. Denk	Oct.	448
Power Requirements, Rolling Mill, by F. Denk	Nov.	511
Power Transmission, Cotton Rope for, by J. M. Alison	Aug.	354
Power Requirements, Rolling Mill, by F. Denk	Aug.	362
Prevention of Tuyere-Breast or Bosh Breakouts	Dec.	573
Problems in Liquid Use of Ferromanganese	July	329
Producers, Coal and Ash Transportation at, by H. V. Schiefer	May	199
Production of Low Carbon Electric Steel, by A. S. Hellstrom	Aug.	371
Pulverized Coal as Fuel	Mar.	126
Re-agent for Etching Mild Steel	Apr.	166
Refractory Materials, Physical Analysis of, by Cosmos Johns	Dec.	563
Refractory Linings and Materials (1), by J. W. Haulman	Apr.	159
Refractory Linings and Materials (2), by J. W. Haulman	May	197
Reinforcing Bars Rolled from Old Rails, by W. S. Standiford	Dec.	560
Relative Methods of Forming Steel, Pressing, Hammering or Rolling, by J. L. Cox	June	252
Removing Old Engine Bases	Feb.	74
Report of Coke Oven Accidents in 1916	Nov.	523
Resulting Reaction of Superheating Slags, by J. E. Fletcher	Dec.	549
Reversing Mills, Growth of Electric Drive for	Sept.	414
Reversing Mills, Electric Drive Drives for, by D. M. Petty	Oct.	464
Rod Mill Drive, Uniflow Steam Engine for, by Charles C. Lynde	Apr.	143
Roller Bearings, Characteristics of, by P. B. Liebermann	Oct.	451
Roll Pass Design for Standard Rails, by W. S. Standiford	Aug.	366
Roll Pass Design, The Elements of, by W. Trinks	June	269
Roll Pass Design, The Elements of, by W. Trinks	July	320
Roll Pass Design, Elements of, by W. Trinks	Sept.	400
Roll Pass Design, Elements of, by W. Trinks	Nov.	518
Roll Pass Design, Elements of, by W. Trinks	Dec.	555
Roll Scale for Bessemer Use: Discussion	May	209
Roll Scale as a Factor in Bessermerizing, by A. Patton and F. N. Speller	Apr.	164
Roller Bearings for Steel Mill Cars, by P. B. Liebermann	June	264
Roll Design for Shrapnel and Shell Bars, by W. S. Standiford	July	312
Rolls for Edging Flat Bar Iron or Steel, by W. S. Standiford	Sept.	397
Rolling Mill Power Requirements, by F. Denk	Aug.	362
Rolling Mill Power Requirements, by F. Denk	Oct.	448
Rolling Mill Power Requirements, by F. Denk	Nov.	511
Rolling Mills, Data on Rope Drive for	Aug.	372
Rolling Flat Beams, Mill Design for, by F. Denk	Feb.	61
Rolling Flat-Flanged Beams, Mill Design for, by F. Denk	Mar.	101
Rolling Flat-Flanged Beams, Mill Design for, by F. Denk	Apr.	149
Rolling Flat-Flanged Beams, Mill Design for, by F. Denk	May	202
Rolling Wide-Flanged Beam Sections, by F. Denk	June	271

Original from UNIVERSITY OF IOWA

Rolling Wide-Flanged Beam Sections, by F. Denk.....July 306
Rope Drive for Rolling Mills, Data on.....Aug. 372
Rusting of Iron in Water.....Jan. 38

Service of Rails, Influence of Cooling on, by Dr. O. H. Dudley.Jan. 28
Sheared Plates, Plate Mills for Rolling, by F. C. Biggert, Jr.Oct. 443
Shearing Steel and Other Metals, Data for, by W. Trinks...Mar. 95
Sheet and Strip Stock, Making and Buying of, by F. Walter Guibert .....May 218
Sheet and Tube Works, By-Product Plant at, by C. C. Lynde.Jan. 1
Shovel Plates from Old Locomotive Tires, by W. S. Standiford .....June 274
Shrapnel and Shell Bars, Roll Design for, by W. S. Standiford .....July 312
Silent Chain Drives for Steel Mills.....Jan. 48
Silica Bricks, Experimental Tests on, by C. E. Nesbit and M. L. Bell .....Sept. 409
Silica as a Component of Blast Furnace Furnace Slag, by W. G. Imhoff.....Apr. 155
Skip Hoists, Electric Furnace.....Apr. 174
Skip Hoists for Automatic Handling, by H. V. Schiefer....Sept. 402
Slack, Pneumatic Conveyor for.....Apr. 174
Slag Cements, Blast Furnace.....Jan. 36
Slag from Open Hearth, Guns for Digging.....Nov. 523
Smelting Pig Iron in the Electric Furnace, by Robert Turnbull .....Nov. 502
Smokeless Operation of Heating Furnaces.....Mar. 126
Sodium Hydroxide, Brittleness in Iron Through.....Jan. 34
Solid Carbon, Cementation of Iron by.....Apr. 166
Special Steel Making, Washed Metal in, by H. D. Hibbard..Jan. 12
Stack and Oven Gas, Coefficient Curves for, by T. G. Estep, Jr.Apr. 147
Standard Orifice, Measuring Gas by, by T. G. Estep, Jr....Jan. 16
Standard Rails, Roll Pass Design for, by W. S. Standfiord..Aug. 366
Steel, Aluminum Inclusions in .....Jan. 36
Steel Castings, The Manufacture of, by Robert P. Lamont..June 242
Steel Mill Cars, Roller Bearings for, by P. B. Liebermann..June 264
Steel Industry, Electrical Development in the , by C. G. Ahrens.Oct. 437
Steel Ingots, Crystallization of, by J. F. Keller.....Oct. 455
Steel Ingots, Temperature Influence on .....Nov. 523
Steel Ingot Defects, Causes of, by J. N. Kilby.....July 301
Steel Metallurgy, Manganese Significance in, by F. N. Willcox.Mar. 97
Steel Production by the Duplex Process, by J. K. Furst....Sept. 392
Steel Production by the Duplex Process, by J. K. Furst....Oct. 458
Steel Reinforced Aluminum Cables .....Feb. 74

Steel, Relative Methods of Forming, Pressing, Hammering or Rolling, by J. L. Cox.....June 252
Strength and Inner Structure of Mild Steel, by Prof. W. E. Dalby .....June 277
Suggestions Regarding Construction of Hot Blast Stoves....Mar. 126
Sulphur as a Component of Furnace Slag, by W. G. Imhoff..July 308
Sulphur as a Component of Furnace Slag, by W. G. Imhoff..Aug. 358
Sulphur in Low Carbon Steel, Discussing .....May 221
Superheating Slags, Resulting Reactions of, by J. S. Fletcher.Dec. 549

Temperature Gaging, Bessemer and Open Hearth, by G. K. Burgess .....Mar. 117
Temperature Influence on Steel Ingots.....Nov. 523
Temperature Measurements in Bessemer and Open Hearth Practice .....May 225
Tentative Institute Program .....May 217
Test for Carbon Monoxide .....Sept. 414
Texture of Firebrick, The .....Jan. 38
Thermo-Electric Determination of the Critical Points of Iron.Jan. 34
Thermit Welding .....Oct. 473
Tire Mill in Armament Making .....July 329
Torque and Work of Acceleration .....Aug. 372
Turbo Blower, Measuring Air Delivered by a, by T. G. Estep, Jr. .....Dec. 558
Turbo Blower in Steel Mills .....Oct. 470
Turbo Generator Installation, Discussion, by D. S. Jacobus..July 326
Turbo Generator, Installation of Large, by Richard H. Rice.July 315
Turning Stock During Hammering .....Feb. 74
Tuyere Breast or Bosh Breakouts, Prevention of.....Dec. 573
Tuyeres, Need for High Air Pressure in, W. Trinks.....Feb. 53
Types of Different Blast Furnace Slags, by W. G. Imhoff....Mar. 113

Uniflow Engine in Steel Mill, Performance of.....Oct. 473
Uniflow Steam Engine for Rod Mill Drive, by Charles C. Lynde .....Apr. 143
Unloader for Frozen Ore and Coal Cars.....Feb. 69

Uranium Steel, Government Research on .....June 276
"War Meeting" of Iron and Steel Institute.....June 245
Waste Metals, Disposal of .....Jan. 38
Washed Metal in Special Steel Making, by H. D. Hibbard..Jan. 12
Wide-Flanged Beam Section, Rolling, by F. Denk.....June 271
Wide-Flanged Beam Section, Rolling, by F. Denk.....July 306
Wire Rope Lubrication, Need of.....May 225
Women in Steel Works .....Sept. 414
